

HOW TO AVOID BECOMING THE VICTIM OF THE SINGLE LARGEST KILLER OF AMERICANS - HEART DISEASE.

ABOUT EVERY 60 SECONDS SOMEONE DIES FROM A CORONARY EVENT.

Will you be around to dance at your daughter's wedding? Or will her eyes brim with tears of sadness on the happiest day of her life because you aren't around to enjoy it with her?

*Dad, Mom,
I met the man
I'm going to marry.*

Give your daughter and your heart the gift of your continued good health with three supplements that work well individually but work most effectively taken together. **CardioPeptase** breaks down arterial plaque and **Red Rice Yeast** inhibits the enzymes that make cholesterol leading to potential reduction of arterial plaques. **Coenzyme Q10** protects the heart and liver from damage due to taking statin drugs. Statins have side effects like nausea, headache, weakness and muscle pain. There's also the chance of damage to your muscles and liver from taking statins.

Start now on a healthy heart program and be ready to dance at your daughter's wedding. Each supplement is sold separately but our June special **buy Red Rice Yeast and Coenzyme Q10 and get CardioPeptase free** allows you to try all three. Buying one bottle of each of the three supplements allows you to have the best benefits of the trio. Don't give your daughter a reason to be sad on her wedding day. Place your order now and be there to see the bridal couple cut the wedding cake.

Call in your order today toll free at 888-433-5266
9am - 5pm PST, Monday-Friday or 805-473-1389
